Dated 03rd December 2018.

Respected CEC members of BSNLEU CHQ

Respected Circle Secretaries of BSNL Employees Union,

On behalf of Reception Committee of A I C – 2018 Mysuru, we are extremely happy to address you all, for the first time officially.

On behalf of Reception Committee, we welcome you all in a most comradely and warmth condition. We strongly believe that this 9th All India Conference will be a grand success, create a milestone in the agenda discussions and also help our Union to grow in a much stronger way, after the historic conference. Mysuru is known as a city of palace; Mysuru is a city of Universities; Mysuru is a cultural center; **Mysuru is known for its cool and very serene atmosphere with lot of parks and lung space to breath in; Mysuru Dasara is world famous and during the period of Dasara, in October month, it attracts lakhs of tourists to this city of palace; added to all these, It is most prestigious thing for us to host the all India Conference at Mysuru, which has won the best clean city award in first place at the national level for three times continuously.**

As for as the Reception Committee works are concerned, most of the preparatory works have been finished; teams nominated for various works related to preparations of all India Conference are working continuously, with more enthusiasm and zeal. I take this opportunity, to thank all those working team members.

Finance position wise, we are facing a tough situation. This is the only area, wherein we are not satisfied. Though our union members are contributing in a full pledged way, the amount collected overall will not be sufficient to go ahead with the conference. Donations, advertisements and other type of financial help from outside Karnataka Circle is not to the satisfactory level. We take this opportunity to appeal to all of you, to remind, to see that we are helped to a maximum extent by any mode of financial help.

The very main reason for addressing you all is to inform you about certain details related to all India Conference, which are as follows:
